(Award period: July 1, 2003, through June 30, 2004)

Introduction and Purpose:

Governor Mitt Romney, the Massachusetts State Legislature, and Secretary of Public Safety Edward A. Flynn are pleased to affirm their commitment to the State-funded Community Policing Grant Program in fiscal year 2004.

The goal of the State-funded Community Policing Grant Program, which is administered through the Executive Office of Public Safety Programs Division (EOPS Programs Division), is to support the implementation and institutionalization of the Community Policing Philosophy. As policing in Massachusetts has undergone a steady transformation from a police-centered, reactive approach to a crime analysis-driven, proactive model, this philosophy has become an integral part of combating crime and improving the quality of life in Massachusetts. The State-funded Community Policing Grant Program provides citizens with the opportunity to contribute both individually and collectively to enhance public safety and quality of life, while providing officers with the innovate training, technology, and motivation to address community problems. The State-funded Community Policing Grant continues to provide support to communities and the EOPS Programs Division continues to challenge police departments to develop Community Policing strategies that address street crime and delinquency, as well as terrorism, in preventing both local and international crime.

Eligibility:

State-funded Community Policing Grant Program funds are intended to support Community Policing initiatives in cities and towns with local police departments as established in Massachusetts General Law, Chapter 41, Sections 96, 97, and 97A.

Methodology and Grant Selection Process:

The allocation of this year's Community Policing awards is based on analysis of the General Appropriations Act of 2004. In addition, police departments are required to complete and return grant applications reflecting their program plans and budget. Final awards are determined by the Secretary of Public Safety based on earmarking in the legislation, population statistics, current crime trends, adherence to Grant Special Conditions and Reporting Requirements, unspent balances of prior-year Community Policing Awards, and quality of the applications submitted. Scoring of applications will be based upon the applicant's ability to prepare and submit a quality proposal which adheres to the criteria and instructions described in this application and incorporates suggested program initiatives or other innovative strategies to articulate a comprehensive Community Policing implementation plan tailored to meet the particular needs of their community. Upon completion of the grant review process the Executive Office of Public Safety will issue an award letter to the Chief of Police of the particular municipality.

Use of Funding:

Grant funds may be used for any of the purposes indicated below, at the discretion of the Chief of Police. All overtime and other police officer compensation must be allocated in adherence with current collective bargaining agreements of the particular police department or at the discretion of the Chief of Police.

- A. **Personnel** to defray personnel costs incurred as a result of employment of personnel dedicated to implementation of Community Policing initiatives.
- B. **Training** to defray the costs of training law enforcement and civilian personnel in the Community Policing philosophy or any training to enhance administrative, technical, and/or

(Award period: July 1, 2003, through June 30, 2004)

- C. **Overtime Training -** to defray overtime costs incurred by the police department as a result of police officers assigned to Community Policing-related training that occurs and/or extends beyond his regularly assigned tour of duty.
- D. **Overtime Replacement Costs -** to defray straight time or overtime replacement costs required to backfill shift vacancies generated as a result of police officers assigned to Community Policing-related initiatives or activities and, therefore, making the officer unavailable to fulfill regularly scheduled tours of duty.
- E. **Overtime Beyond Tour of Duty -** to defray overtime costs incurred as a result of police officers working on Community Policing initiatives or activities beyond regularly scheduled tours of duty.
- F. **Supplies & Operating Expenses -** to defray the costs of supplies and operating expenses incurred by the police department to support or enhance Community Policing initiatives.
- G. **Equipment -** to defray the costs of purchasing or leasing any equipment, (e.g., computer/information systems, communications devices, motor vehicles and other conveyances, and all other general equipment), required to support Community Policing initiatives and/or enhance police service to the community.
- H. **Other** to defray the reasonable costs of all other fees or services intended to facilitate or enhance Community Policing related initiatives, including but not limited to software licensing fees, communication fees (cellular airtime), service agreement fees, consulting, and program evaluation expenses.

Note: State Community Policing Grant Program resources may, at the discretion of local Chiefs of Police, be utilized to meet the "hard cash" matching requirement of any other federal grant programs offered to local police departments for Community Policing-related initiatives.

Limitations on the Use of Community Policing Funds:

Funds for programs and services provided through this grant are intended to supplement, *not supplant*, local police department budgets. The operating budgets of local police departments may not be reduced as a result of this funding. Generally, funds will not be approved for new construction, weapons or ammunition.

Additionally, in accordance with the limitations on use of funds set forth in the General Appropriations Act of 2004, state Community Policing grant funds "...shall only be expended on items that are related to community policing activities, programs, purchases or construction; provided further, that grant funds shall not be expended on food and beverages, recruit training academy tuition, salaries and benefits for non-community policing personnel and payments for non-related overtime."

Submission Requirements:

Please submit **one original** and **three copies** of this application by 5:00 PM on **Friday**, **November 7, 2003**, to Catherine Obert, Deputy Director of Law Enforcement Programs

(Award period: July 1, 2003, through June 30, 2004)

Executive Office of Public Safety Programs Division, One Ashburton Place, Suite 2110, Boston, MA 02108.

Community Policing is an integral part of combating crime and improving the quality of life in the Commonwealth of Massachusetts. It is based upon the belief that police officers and private citizens working together can help address problems related to crime, fear of crime, and issues which detract from the overall quality of life in a community. Community Policing challenges police officers to act as catalysts for positive change in their communities, challenging citizens to accept greater responsibility and providing them with the opportunity to contribute individually and collectively to public safety. It enhances police professionalism by providing officers with the training, technology, and motivation to act innovatively to address community problems. I attest that the information contained herein is true and accurate to the best of my knowledge.

- **14. Past Progress -** (1 page maximum) Provide a brief synopsis of Community Policing-related initiatives and enhancements made possible in your police department and community to date by the resources provided through the State-funded Community Policing Grant Program. Describe how these initiatives and enhancements have impacted crime, the perception of crime, and the quality of life in your police department and community.
- 15. Problem Identification (1 page maximum) Describe the process by which your police department identifies the crime and disorder problems in your community (e.g., crime analysis, arrests, offenses, calls for service, crime reports, etc.). Please describe the means by which your police department then utilizes this information to conduct outreach on an ongoing basis with the community to identify existing community problems (e.g., citizen surveys, community advisory groups, informal feedback). As a result of these processes, please describe the crime and disorder problems currently challenging your community (please provide all relevant quantitative data). In addition, you may also use this section to describe any special circumstances, unique public safety challenges, or extenuating factors impacting your community that should be noted as part of this analysis (e.g., gang problems, seasonal population shifts, etc.).
- 16. Goals and Objectives/Desired Outcomes (1 page maximum) As a result of the problems identified in the previous section, describe the comprehensive Community Policing strategy developed by your police department, in cooperation with the community, to address these issues. Outline your plan in the form of goals,* objectives,** and desired outcomes which will be used to address crime, fear of crime, and quality of life issues in your community. Your goals and objectives may be multi-faceted and reflect the complex nature of the problems challenging your community. PLEASE INCLUDE THE NAME OF YOUR POLICE DEPARTMENT AT THE TOP OF THIS SECTION. This section will be provided to the State Legislature and serve as a summary of your Community Policing plan.

- *A goal is the desired end to which the project is directed. The goals of your program should be clearly stated, realistic, obtainable, and measurable. In stating your goals, be careful to describe the desired end and not the means to the end. (e.g., reduce oxycontin robberies at local pharmacies).
- **Objectives are the intermediate activities to be undertaken by the police department in pursuit of the goal(s). In formulating the proposed objectives, please identify who or what will be impacted, when, where, and how. Objectives must also be obtainable and measurable (e.g. conduct five education seminars directed to pharmacists to enhance awareness and target harden pharmacies against robbery; engage in directed patrols at opening and closing times, as well as random intervals, to provide deterrence and to reassure pharmacists, staff, and the community.
- 17. Budget Detail Worksheet Provide a practicable budget which describes the anticipated expenditures for each budget category, with the total being equal to the grant amount for which your police department is eligible (see number 11). Each section should contain computation demonstrating how you arrived at each specific allocation as well as supporting narrative that explains, in detail, each proposed budgetary item. Attachment A provides a sample of a completed Budget Detail Worksheet which may be used as a guide to assist you in the preparation of the budget and budget narrative.

(Award period: July 1, 2003, through June 30, 2004)

Purpose: Please complete each section as indicated. If any category of expense is not applicable to your budget, please indicate by entering "not applicable."
